

World Conservation Congress 2020  
Electronic vote by IUCN Members on motions

Dear IUCN Members,

Recently, the Authorized vote holder for your organisation received a secure link to the system for the vote by IUCN Members on motions. Please note that the secure link was sent **only** to the Authorized vote holder and is unique for each IUCN Member organisation.

The motions process, which helps set the conservation agenda and to define IUCN policy, is a central part of IUCN's governance system, and plays a critical role in achieving the Union's Mission. Through motions, Members can influence future directions of the conservation agenda and seek international support for the global challenges currently facing the conservation community.

The vote is open until **13:00 GMT/UTC on 21 October 2020** and I would like to take this opportunity to encourage you personally to take part in this vote by exercising your right to vote.

The list of motions to be voted on electronically, and a guidance note on the electronic system, can be accessed via the links below, and are also available on the [Congress website](#).

- [List of motions](#)
- [Guidance Note on the electronic system](#)

Should the Authorized vote holder encounter any difficulty in casting the vote for your organization, please contact the IUCN Secretariat at [membership@iucn.org](mailto:membership@iucn.org) for assistance.

Thank you for your attention to this important matter.

Jonny Hughes  
IUCN Councillor
